We're teaming up with the David Oluwale Memorial Association, with support from the Community Fund, to run a powerful series of music workshops just for young people (13–21).

Thurs 5-6.30pm

Starting 5th June 2025

We'll dive into real-life issues that affected David Oluwale — like *migration, homelessness, mental health, and racism* — and turn those themes into music that speaks your truth.

Discover the sounds that shaped Leeds back in David's time (1949–1969), from jazz to blues to soul. Then mix in today's vibes — drill, hip-hop, pop, afrobeats, reggae — and create something brand new with us.

This project will lead to a performance at Leeds Playhouse on 19th July.

No music experience needed. Just bring your ideas, your energy, and your voice.

Let's make music that matters.
